

Teaching with iPads

A Course for Educators & Technology Facilitators

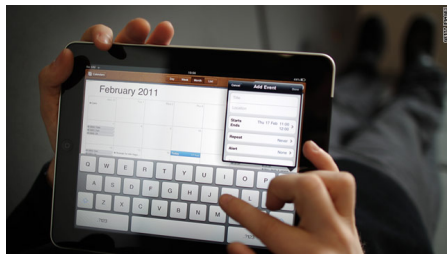

Educators iPad Course

Participants will learn to navigate the features of the iPad and steps for bringing this technology into the classroom. Instruction will focus on how to utilize the features of the iPad for classroom productivity and as an instructional tool. This course includes a \$25 gift card that can be used to purchase some of the Apps reviewed or others that may catch your eye.

Agenda Includes:

- I. Development of the Academy
- II. Essential/Non-Essential apps overview
- III. Lesson Integration/Participant project
- IV. Wrap up participant project and share with workshop
- V. File sharing techniques
- VI. Annotation techniques
- VII. App searches
- VIII. Participant project - Content or site-specific lesson which draws upon 3 elements (essential and nonessential apps, file sharing and annotation techniques) learned in workshop.
- IX. Wrap up participant project and share with workshop
- X. Reflection and evaluation
